Smart Spaces | Work Smarter

Welcome to Aesthetik  
Business Furniture and Interiors

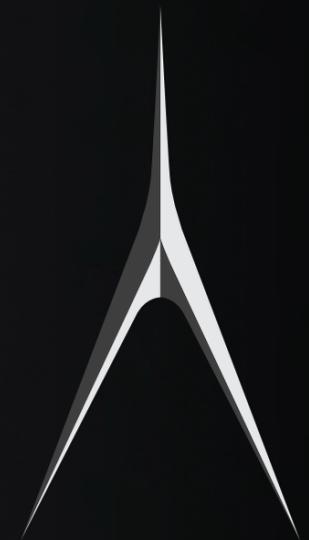

We are a specialised service in interior design, manufacturing and project management dedicated to transforming spaces with our curated range of products. Our focused design philosophy provides solutions for diverse clientele.

Our custom products and services highlight the finer details, embracing the "less is more" principle. By combining traditional manufacturing techniques with innovative technology, we remain leaders in our field.

It's the simple elements that truly count, particularly when they prioritise user experience and authenticity. Rather than adding more, we believe that subtracting can bring peace of mind and lasting value.

Aesthetik caters to professionals and businesses that demand high-end, functional office furniture with a modern aesthetic. The brand serves executives, architects, interior designers, corporate managers, legal professionals, financial advisors, medical practitioners, creative directors, and tech entrepreneurs. Designed for corporate offices, home workspaces, and commercial environments, Aesthetik offers refined, durable, and well-crafted furniture. With a focus on the South African market, the brand positions itself as a leader in sophisticated office solutions, combining style and functionality to meet the evolving needs of contemporary workspaces.

# Single Desk

Explore our technical specifications and color options below. Our three leg systems are designed for uniform functionality, ensuring seamless integration across all configurations. Each single table consists of two legs, two beams, a durable worktop, a cable tray, and a front modesty panel. All steel components are finished with high-quality indoor epoxy powder coating, while our timber boards are reinforced with high-impact PVC edging for enhanced durability and longevity.

**BUSINESS FURNITURE**  
**Cluster Desk**

A cluster desk is a versatile, expandable desking system designed for workspaces that require multiple seating arrangements. Ideal for open-plan offices such as call centers, sales floors, design studios, and project management spaces, it offers a practical and efficient solution for collaborative environments.

Our leg system maintains consistent functionality across all three design options—Pocket, Shadow, and Bevel. Depending on the required configuration, cluster desks are constructed using two end legs, centrally positioned support legs, beams, worktops, privacy screens, and a shared cable tray running the length of the setup. There is no limit to the number of sections that can be added, making it fully scalable to accommodate seating arrangements of 8, 10, 12, 14, 16, or more.

All steel components are finished with high-quality indoor epoxy powder coating, ensuring durability, while our timber boards are edged with high-impact PVC for enhanced resilience. Explore our technical specifications and colour options below.

BUSINESS FURNITURE

# Staggered Desk

The staggered desk is a versatile workstation that pairs a single desk with a side credenza, forming an L-shaped layout. When combined with a matching setup, it creates a spacious, open-plan environment ideal for managerial teams and collaborative workspaces. Designed for both functionality and aesthetics, it offers a well-balanced solution for workspace efficiency, integrating ample work surfaces, storage, and display options.

This system is available in all three of our leg designs, featuring a single-leg structure alongside our sleek slimline credenza. For further details, refer to our Storage section under Credenzas. All steel components are finished with premium indoor epoxy powder coating, while our timber boards are edged with high-impact PVC for durability. Explore our technical specifications and color options below.

# Meeting Desks

A meeting desk is a straightforward yet essential workspace solution, consisting of two legs and a durable worktop. While minimal in design, it plays a vital role in daily productivity by fostering collaboration and decision-making. Available in sizes ranging from 2 to 8 seaters, it can be customized with any of our three leg designs to suit various workplace needs.

All steel components are finished with high-quality indoor epoxy powder coating, ensuring durability, while our timber boards are edged with high-impact PVC for a refined and long-lasting finish. Explore our technical specifications and color options below.

# Boardroom Tables

A boardroom table is a sophisticated and highly functional desking system designed for executive spaces. These large, statement pieces accommodate essential electrical and audiovisual components, facilitating seamless collaboration and high-level decision-making. As a premium feature, our boardroom tables are crafted with a durable 32mm worktop, enhanced by a distinctive center split-line detail exclusive to Aesthetik.

Our range starts with a 10-seater option and extends up to a 20-seater, available in all three of our signature leg designs—Pocket, Bevel, and Shadow. The Bevel Boardroom Range stands out as our most exclusive offering, featuring a bold, sculptural leg design that always sparks conversation.

All steel components are finished with high-quality indoor epoxy powder coating, while our timber boards are edged with high-impact PVC for exceptional durability. Explore our technical specifications and color options below.

BUSINESS FURNITURE

# Storage

Our sleek storage cabinet range embodies a refined, modern aesthetic. The choice of materials provides durability and a sophisticated presence, while the glass paneling adds an element of transparency and lightness. Integrated LED lighting subtly enhances the interior, creating a warm ambiance and highlighting key display areas. Thoughtfully designed with a combination of open shelving, concealed storage, and soft-close drawers, this cabinet is perfect for both functional organization and elegant display. Ideal for offices, lounges, or contemporary living spaces, it seamlessly blends style with practicality.

BUSINESS FURNITURE

# Under counter

This pedestal is crafted from durable melamine, ensuring a sleek and long-lasting finish that is resistant to wear. Its design is enhanced by gloss edging, adding a refined touch to the overall aesthetic. Featuring high-quality push-to-open runners, the drawers glide smoothly without the need for handles, offering a clean and minimalist appearance. Security is also a priority, as the unit is equipped with a reliable cam lock system to keep documents and valuables safe. Designed for practicality and modern office spaces, this pedestal seamlessly blends functionality with sophistication.
